Unfair trading practices as well as the increasing dominance of global companies originating in the East and the West are threatening Europe's economy. EU Competition Policy is central to the functioning of the internal market and is one of our most powerful tools to ensure a level playing field for all European companies. The Competition Policy Working Group concentrates on recommending smarter competition policies that will help European business to also compete successfully at scale on the international stage.

The "Competition Policy" Working Group:

Chair
Nils S. Andersen
Chairman / AkzoNobel

Convenor
Dirk Middelschulte

All Focus Areas

**Competitiveness & Innovation**
European companies and their employees are under increasing pressure from international competition.

**Strengthening Europe’s Place In The World**
The European Union has benefited its citizens economically and socially, regardless of the current challenges.
Digital Transformation
The digital transformation of industry is a critical factor for Europe’s competitiveness, growth and jobs.

Jobs, Skills & Impact
Europe’s greatest asset is its people and their diversity. We focus on bridging the skills gap and building an inclusive company culture.

Energy Transition & Climate Change
The EU has taken a global lead in climate action - climate neutrality and global competitiveness must be mutually reinforcing.
Trade & Market Access
Free trade is one of the founding principles of the EU, and we need to take a stand to protect and preserve it.

Competition Policy
Unfair trading practices as well as the increasing dominance of global companies originating in the East and West are threatening Europe's economy.

CFO Platform
Europe must become a more attractive destination for doing business and making investments.
