OUR MEMBERS

We are an independent association whose members include the leaders of some of South Africa’s biggest and most well-known organisations. Through this forum, South Africa’s business leaders engage key players in South African society, including civil society and labour, to exchange ideas in our national interest, and to create an effective dialogue with government and other stakeholders. To find out about membership click here.

Business Leaders stand ready to work hard to support open, reform-minded ministers and public service officials to ensure reforms are implemented so that we can resolve our problems in energy and transport. Read @BusiMavuso2’s column in @bdlivesa.

BUSISIWE MAVUSO: Ramaphosa should use strong mandate to root out crime
