**U.S. Chamber of Commerce (USCC)**

USCC states that it is the world’s largest business organisation, representing the interests of businesses of all sizes and sectors in the USA.\(^1\)

**Membership of board/executive committee:** Shell is represented on the board of directors.

---

### 2022 assessment outcome:

- Some misalignment

### 2021 assessment outcome:

- Some misalignment

---

**Summary**

Shell benefits from its membership of USCC, especially on broader policy issues that affect Shell as a major contributor to the US economy such as energy policy, tax reform, international trade and investment, and innovation.

We note that USCC opposed the 2022 US Inflation Reduction Act due to concerns primarily around tax increases.\(^2\) However, USCC noted there were parts of the bill that would advance progress on climate and energy security.\(^3\) Shell supported the legislation, which has been described as the “largest climate investment in American history.”\(^4\)

We have found USCC to have some misalignment with our climate and energy transition-related policy positions.

We will urge USCC to:
We will encourage USCC to:

- Support ending routine flaring by 2030 or sooner.
- Support policies to ensure that nature-based solutions complement and do not displace efforts to avoid and reduce greenhouse gas (GHG) emissions.

We will remain a member of USCC at the current time. We will continue to track alignment between USCC’s climate and energy transition-related positions and our own and will be transparent about where we find differences. We will continue to engage the association in areas where we have different views, including through our positions on USCC’s board and task force on climate actions.
