RST Automated Solar Cleaning
The RST Cleantech Solution is an automated solar panel cleaning system designed to increase solar energy production and preserve your panel warranty. The system uses filtering technologies and advanced water engineering to treat water scaling and corrosion found in water sources around the world. It is designed and developed in accordance with the solar panel manufacturers’ warranties and maintenance guidelines – and it is one of the only solar panel cleaning systems in the world that is completely green. We don't add chemicals and avoid all chemical byproducts. RST CleanTech Solutions Ltd was established in 2013 and has since become a global leader in automated panel cleaning, cleaning over 1,000,000 panels every day around the world. We have sales and marketing offices in USA, Latin America and Middle East, specializing in solar PV industry, automatic operation and maintenance (O&M) solutions.
