The Texas Oil & Gas Association (TXOGA) is a statewide trade association representing every facet of the Texas oil and gas industry including small independents and major producers. Collectively, the membership of TXOGA produces approximately 90 percent of Texas’ crude oil and natural gas, operates nearly 90 percent of the state’s refining capacity, and is responsible for the vast majority of the state’s pipelines. In fiscal year 2022, the Texas oil and natural gas industry supported 443,000 direct jobs and paid $24.7 billion in state and local taxes and state royalties, funding our state’s schools, roads and first responders.

Founded in 1919, TXOGA is the oldest and largest oil and natural gas trade association in the State and continues to serve as the only organization which embraces all segments of the industry.
The activities of the Association are governed by the Board of Directors, comprised of approximately 50 industry leaders and currently chaired by Alan L. Smith, of Rockcliff Energy.

**Board Chairman**

**Alan L. Smith**  
Rockcliff Energy

**Ryder Booth**  
Chevron
