The American Chemistry Council (ACC) represents the leading companies in the business of chemistry. Our companies make the products that make modern life possible. ACC members have made a voluntary commitment to uphold the highest standards for protecting health, safety, and the environment. ACC is committed to improved environmental, health and safety performance through the world-class **Responsible Care®** initiative, participation in which is a condition of ACC membership. **Membership** brings with it important business opportunities and information, including meetings and networking, economics, statistics, publications and a special forum responding to the **needs of smaller and medium-sized enterprises**. Our member companies are also taking a leadership role in ensuring that chemistry facilities are secure.

ACC's Vision

Promote and protect the business of chemistry's leadership in driving innovation, creating jobs and enhancing safety in our performance, processes and products.
