## BENEFITS OF MEMBERSHIP

Australian Energy Council members have access to a range of industry benefits and services.

### Expertise and networks

Our secretariat is a team of expert energy analysts, economists and public policy advocates with extensive experience in the energy industry. The Council has well-established relationships with government, opposition and allied stakeholders across all jurisdictions. The Council uses this expertise to support its members, and assist in managing the key issues impacting member businesses and the energy sector.

### Your voice in the industry

Utilising our extensive networks across media, industry and government, we are proactive in public debates and use this platform to promote key strategies, inform consumers, defend the industry against unwarranted or incorrect criticism and advocate for the industry generally.
