

MEMBERSHIP OF PLASTICSEUROPE: AN EMPOWERING INSTRUMENT

Membership of PlasticsEurope strengthens our hand in dealings with stakeholders and allows us to improve and add to the services we provide to members.

ABOUT US

As our membership grows, we become even more representative of the plastics industry in Europe, which strengthens our hand in our dealings with industry stakeholders. As a result, we are better able to raise awareness of the positive contributions plastics make to modern society and to rebut misconceptions and misinformation. In addition, a larger membership allows us to improve and add to the wide range of information and services we provide to members.

We encourage all plastics manufacturers involved in the plastics industry in Europe to join PlasticsEurope.

Our current members

PlasticsEurope is a catalyst for the plastics industry accelerating sustainable solutions valued by society. You can find a list of our current members below.

Become a member

Help make the plastics industry in Europe even more successful. Join PlasticsEurope today.

Steering Board Members

A Steering Board guides the Executive Director and Leadership Team on strategy, budget and policy. The Steering Board is supported by Regional Advisory Boards and the Coordination Committee, each composed of member companies' representatives and association's directors. The Steering Board includes the President, the Vice-President, the Treasurer and other senior representatives of member companies. These are elected for a three-year term with one possible mandate extension.

Contact us for more information
