

GOVERNANCE

IETA received legal non-profit status from the government of Switzerland in June 2000, and received [United Nations Framework Convention on Climate Change](#) non-governmental organisation accreditation in October 2000.

IETA is a membership organisation where all members have one vote, used at the Annual General Meeting and any Extraordinary General meetings. Half of IETA's 18 Board members are elected each year.

IETA's [articles](#) and [bylaws](#) are accessible on the right of this page. IETA's competition policy and internal guidance for developing position papers are also available, for members only.
