» [View ACC's Regular Members](#)

Regular members are companies that as a significant portion of their businesses make or sell chemical products in the United States. Dues are based on third-party sales of chemical products manufactured or sold in the United States (this includes products imported for sale in the United States).

Our members share a common commitment to driving innovation in our industry, economy, environment and society.

Benefits

The value, benefits, and opportunities that membership offers provide an immediate return on investment through:

- Powerful advocacy
- Enhanced performance and operating efficiencies
- New business opportunities
- Stronger stakeholder relations
- Economic and industry intelligence, research and benchmarking

ACC is committed to improved environmental, health and safety performance through the world-class Responsible Care[®] initiative, participation in which is a condition of ACC membership.

ACC delivers. We have a highly-skilled staff located just steps from Capitol Hill; an aggressive, results-driven advocacy agenda; cutting-edge communications capabilities; economic forecasting and industry trends data; a proactive long-range research program and exceptional member service that make us second to none.

Even in the most challenging climates, ACC delivers results. In 2018:

- Helped secure the historic “Tax Cuts and Jobs Act”, modernizing U.S. tax structure to **promote global competitiveness**;
- Protected product markets by defeating or amending more than **130 flawed hazard-based bills** seeking to ban or restrict chemical or plastic products;
- Secured passage of Miscellaneous Tariffs Bill providing U.S. chemical manufacturers more than **\$640 million in tariff relief**;
- Reduced chemicals and plastics exposure to China Section 301 tariffs **by more than \$3.5 billion**;
- Achieved TIH Tank Car agreement with AAR, yielding **savings of more than \$130 million**;
- Secured **15-month reauthorization** of CFATS Program;
- Secured **renewal of SAFETY Act** designation providing legal liability protections for qualified anti-terrorism technologies.
- Secured **confirmation of two new STB commissioners**, achieving a quorum and restarting key rulemaking process;
- Continued to strengthen our political programs, **holding a record 144 events, engaging 127 elected officials**;
- Added **12 new member companies**, including Americas Styrenics, LLC & Nouyron.
