

Ibec Trade Associations

To reflect the distinct needs of our members, we have over 38 individual trade associations, each supported by a team of industry experts.

Ibec trade associations are established under the Ibec Rules and Byelaws which operate for the purposes of consultation, representation, and the provision of Ibec services to members of the Trade Association.

Each Trade Association comprises of an industry board, reflective of its membership, an elected Chair, Vice Chair and permanent secretariat who implement a policy development and stakeholder engagement strategy set by its members. The boards of each trade association are required to comply with competition and other compliance obligations contained in the Ibec's Trade Association Guidelines.

Ibec also run regular expert briefings, networking and industry-led training programmes for their members.

Our trade associations are strong brands in their own right and include Financial Services Ireland, Food Drink Ireland, The Irish Medtech Association, Small Firms Association, Technology Ireland, Property Ireland and Biopharmachem Ireland, to name but a few.

When you join Ibec, you also get access to an Ibec trade association that supports your industry sector.
