# Our Members

[About Us](#)

APGA's members represent the entire breadth of the pipeline industry. They include constructors, owners, operators, advisers, engineering companies and suppliers of pipeline products and services. While many members have a focus on gas transmission they are active in all aspects of the industry including transportation of other products, such as oil, water and slurry.

You can find our members in the [online member directory \(https://www.pipeliners.com.au/directory/\)](https://www.pipeliners.com.au/directory/). The Member Directory is published annually in handbook format for members. This is usually issued in January. The online directory is constantly updated. The online directory is searchable and lists the products and services provided by APGA members.

## Owner members

Hit enter to search or ESC to close

APGA's owner members represent all the gas transmission pipelines in Australia. and together are

responsible for more than 38,000 kilometres of pipelines that deliver natural gas from production fields to city gates around the nation.

### Our owner members are:
