The mission of PlasticsEurope is to be the catalyst for the European plastics industry and to deliver solutions which are **safe, circular and sustainable**. For over 100 years, science and innovation have been the DNA that cuts across our industry, allowing us to **provide solutions** in an ever-changing world.

As an industry, our guiding focus is to ensure that plastics continue to deliver **societal benefits** without having a negative impact on the environment or health. Our ambition is to set the agenda for our industry when it comes to supporting the European Union's Green Deal ambitions – our collective blueprint for **accelerating our transformation** to a more sustainable future.

Through direct stakeholder engagement, we are determined to implement long-lasting positive change, accelerating a solution-driven, science-based approach working **towards the circularity** and climate goals of a **sustainable plastics industry** that remains vital to the European economy and its recovery plan.

Join PlasticsEurope and add your voice to a growing and **powerful**

network.

A word from our members

PlasticsEurope
Association of Plastic Manufacturers

“

As a Plastics Industry Association, we work towards a **long-term credible view** of our industry supported by facts.

A view of what our industry can and should become, which **responds to the expectations** of key stakeholders and becomes the North star against which we **orient our association's** efforts across the various committees and taskforces.
